Back-Up Benefit:

• The Back-up benefit aims to reward members and their dependants with low claims on the following specified day-to-day benefits:

- 1. Medicine and Injections per family limit
- 2. Optical per family limit
- 3. Auxiliary Services per family limit
- Suppose the actual total amount paid by NMC per family on the day-to-day benefits stipulated above for the current benefit year is less than the threshold limit. In that case, the member qualifies for Back-up benefit the following year, such as on the 2025 benefit year.
- The Back-up benefit is calculated as 15% of the difference between the Threshold Limit and the actual total amount paid by NMC on the day-to-day benefits stipulated above.
- The Back-up benefit will only be calculated at the end of April 2025 to ensure that all day-to-day claims, as stipulated above for the current benefit year, are included.
- Claims against the Back-up benefit for the current benefit year will only be processed after the end of April 2025.
- The unused Back-up benefit can be accumulated and carried over to the following benefit year.
- If the member resigns from NMC, any Back-up benefit balance will go to the Fund reserves.
- If the member passes away and their dependants remain with NMC, the Back-up benefit will be transferred to the remaining dependants.
- The Back-up benefit can be used to pay the excess on the NAMAF tariffs, member co-payments and rejected claims in terms of NMC rules.
- The Back-up benefit cannot be used to pay for claims rejected due to non-compliance with the NAMAF billing rules and guidelines.
